

AESIS Investor Meet Ups- UNDP Namibia

The Sustainable Development Goals (SDGs)

The Sustainable Development Goals will stimulate action over the next 10 years in areas of critical importance:

- people,
- planet,
- prosperity,
- peace and
- partnerships

Objectives UNDP on Private Sector partnership

UNDP through its Private Sector Development and Partnership Strategy (2018-2022) recognized private sector is an important strategic partner in achieving its vision and achieve sustainable development in most countries through :

Eradicating poverty,

Accelerating structural transformations

Building resilience economies

The Strategy aims to assist countries to align private sector activities and investments with the 2030 Agenda and SDGs to be the guiding framework to unlock US\$1 trillion in private capital and increasing the number of businesses of all sizes that align their strategies and operations with the SDG.

UNDP on Private Sector partnership

Engine of economic growth and job creation

Generates tax revenues to finance essential social and economic infrastructure.

Develops new and innovative solutions that help tackle development challenges

UNDP forms collaboration with the private sector

Facilitate discussions between public and private sector and the civil society on a specific development theme or industry sector;

Find solutions for development challenges through core business activities and initiatives that include low-income groups into value chains as producers, suppliers, employees and consumers;

Mobilize private sector financial and in-kind resources for sustainable development solutions

Leverage innovative financing and partnerships solutions to mobilize private capital for the implementation of the SDGs;

Form broader collective action initiatives involving the private sector on key development issues.

Namibia UNDP collaboration with the private sector

Green Bond
Framework

Carbon Markets in Namibia

Full Title: Promotion of carbon markets in Namibia for an enhanced implementation of the nationally determined contributions (NDC) towards net-zero emissions and climate-resilient development, in response to the climate emergency

✂ **The Promotion of Carbon Markets project is designed to establish the enabling environment for Namibia to pursue Article 6 under the Paris Agreement carbon market-based opportunities by:**

- ✂ Undertaking comprehensive gap assessments and needs including for the private sector;
- ✂ Developing policy framework on Carbon Market; and
- ✂ Building a robust Measurement Reporting & Verification (MRV) system for the carbon trade.

Namibia will participate in market-based mechanisms as a financing option for meeting its mitigation targets in the Nationally Determined Contribution (NDC) and raising its mitigation ambitions

In Partnership with GoJ and MEFT

NDP 5: Pilar 3 – Environmental Sustainability

Expected CPD Output(s): Output 2.2: Scaled up integrated and innovative action on climate change mitigation

Target beneficiaries: Government ministries, SOEs, Private sector

Target sectors: Renewable energy, Transport, Forestry, Agriculture, Waste Management
