

What McDermott needs from Namibian Suppliers

Unlocking In-country Value

HERE FOR NAMIBIA

MCDERMOTT

Agenda

1. Who is McDermott?
2. Why Namibia matters?
3. What we need from Namibian suppliers?
4. How to work with McDermott?

WHO WE ARE

MCDERMOTT

Three Business Lines Responding to Market Demand

Subsea and Floating Facilities

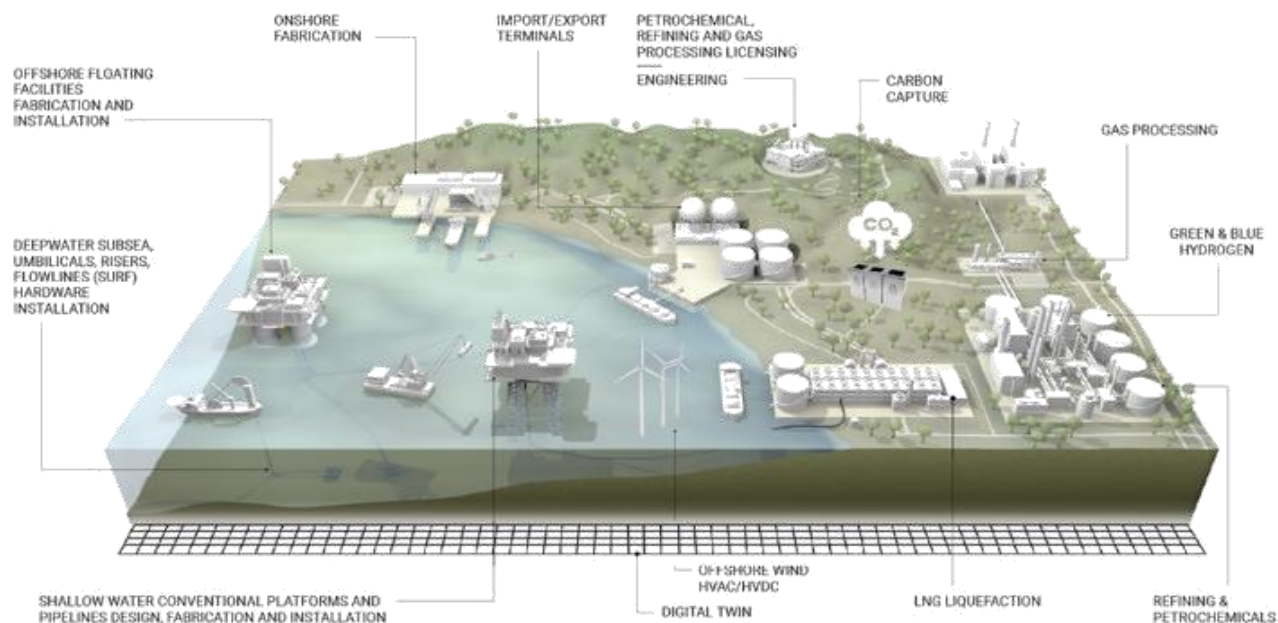

Global EPCIC solutions with best-in-class assets

Low Carbon Solutions

Provide downstream, LNG and energy transition solutions

Offshore Middle east

Shallow water pipeline and fixed structures project delivery

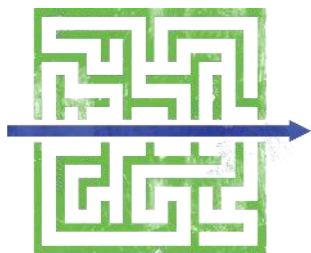

WHAT WE DO

Integrated approach

ENGINEERING

Our digital-centric approach transforms how we work together and the tools we use to increase efficiency and productivity and deliver sustainable solutions for our customers.

PROCUREMENT

Employees at our offices around the world efficiently locate, evaluate, purchase and arrange the transport of materials and services to any project site.

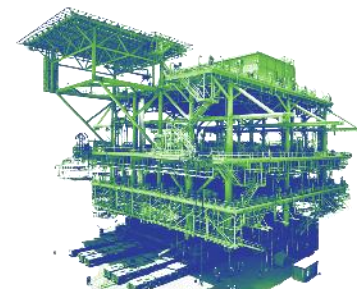

FABRICATION

Our fabrication facilities adhere to the same international standards, regardless of geography or location.

CONSTRUCTION

Specializing in both field and modular construction, we construct our projects using consistent tools, systems and standards to safely deliver superior results even in the most challenging environments.

INSTALLATION

Performing onshore and offshore, subsea and above-surface installation, our ability to mobilize personnel and vessels safely, optimizes productivity and mitigates risks across operations and projects.

- Lead Operating Center
- Projects offices
- Fabrication yard
- Welding center

WHY NAMIBIA MATTERS

At McDermott, we believe that **our success is intrinsically linked to the success of the communities in which we operate.** Our philosophy is rooted in the principles of sustainable development, **national empowerment**, and the creation of **lasting value** for the citizens of the countries in which we operate.

WORKING TOGETHER LONG TERM

- **Major offshore projects are coming**
 - Venus (TotalEnergies) + other discoveries = billions in planned investment.
 - Long-term industry, not a one-off job.
- **Significant scope will be sourced in Namibia**
 - Fabrication, logistics, support services, training, maintenance.
 - Early engagement = better chance to pre-qualify.
- **Developing a robust national industry**
 - The more Namibian supplier grow, the more Namibia benefits.
 - Suppliers with the right standards (ISO, HSE, Governance) will be in demand.
- **McDermott is committed to building this together**
 - Proven in Africa: Angola, Senegal, Nigeria.
 - We want Namibian companies ready for Ultra Deep-Water Challenges.

WHAT WE NEED FROM NAMIBIAN SUPPLIERS

PACKAGES OF INTEREST

Leveraging local supply chain infrastructure

LOGISTICS

- Warehousing
- Cargo Handling
- Cranes, Forklifts, Other Plant Hires
- Trucking

SITE & MARINE SUPPORT

- Sea fastening
- Inspection & NDT

OPERATIONS SUPPORT

- Fuel
- Catering
- Waste Management
- Crew Logistics

WHAT WE NEED

Suppliers today, Partners tomorrow.

TECHNICAL CAPABILITIES

Suppliers who can deliver EPCI support services to offshore and subsea project standards

QUALITY & SAFETY STANDARDS

Suppliers who meet ISO, API, ASME standards, have strong HSE systems, and maintain robust quality control and traceability

COMPLIANCE AND GOVERNANCE

Alignment with Namibian regulations, ethical conduct, and transparent business practices.

CAPACITY & CAPABILITY

Suppliers who can grow to handle large, complex scopes and scale up resources during peak project phases

COLLABORATION

Willingness to collaborate and share best practices

HOW TO WORK WITH MCDERMOTT

WORKING WITH MCDERMOTT

Getting Started

STEP 1 | CONTACT US

suppliersupport@mcdermott.com

STEP 2 | TELL US ABOUT YOUR COMPANY

- What products or services you provide
- How you can help McDermott deliver successful projects
- Your quality certifications (ISO, API, etc.)
- How you ensure safety in your work

STEP 3 | QUALIFICATION

We check safety, quality, financial stability, and other key factors before adding you to our approved supplier list.
