

# Namibia Energy Conference 2023

## Sérgio Ferreira

# This is Norwegian Energy Partners

Norway is a country with fantastic energy resources. For more than a century we have built our country on developing energy solutions in a sustainable way within a wide range of areas, from upstream and midstream oil & gas to energy systems, offshore wind, hydropower and solar energy.

Now we are promoting Norwegian energy capabilities in international markets. Norwegian Energy Partners is providing solutions for global energy needs.

# Technologies & Solutions

Making Norwegian competence, experience and technology available. Search and find world class innovative Norwegian technology and solutions for our future energy needs. Find your perfect energy match from more than 800 solutions.

# Our markets

With an extensive international network and local advisors in key markets, we identify new business opportunities and open doors for the Norwegian energy industry around the world.

Our energy advisors have an extensive international network of industry contacts and deep local knowledge. This knowledge is even more important in the years to come as sales propositions will need to focus even more on the value for the customer.
